## MR. ROOSEVELT'S NEW ENGLAND TRIP

Itinerary Sent From the  
White House This  
Morning.

NEW HAVEN THE FIRST STOP

Yacht Sylph to Leave Oyster  
Bay August 22.

WILL CALL ON MR. MOODY

President Will Also be the Guest of  
Senators Hoar and Lodge—Will De-  
liver an Address at Mechanics' Hall,  
Boston—To Speak at Portland, Me.

The President's long expected trip  
through the New England States will  
begin on Friday, August 22, at 9:30 a.  
m. The itinerary containing a complete  
description of the journey was given  
from the temporary White House this  
morning. The stops have been so ar-  
ranged that all of the important cities  
in the States will be visited. Mr. Roo-  
sevelt during the trip will make a number  
of speeches, the most important of  
which will be that delivered at Mechan-  
ics' Hall, Boston. He will also be the  
guest of Senators Hoar and Lodge, Sec-  
retary Moody and ex-Governor Wood-  
bury.

The New Haven Program.

The itinerary follows: Upon the oc-  
casion of the President's trip through  
the New England States the President  
and Secretary Cortelyou will leave Oys-  
ter Bay on the Sylph Friday, August  
22, at 9:30 a. m., for New Haven, reach-  
ing New Haven about 1:30 p. m., where  
they will be joined by the balance of  
the party. The program for New Haven  
consists of a drive about the city; and  
the President's train will leave at 2:30  
p. m. for Hartford, making a brief stop  
at Meriden, where a drive will be taken.  
The program for Hartford contemplates  
a drive immediately upon arrival, and  
attendance at a meeting at the Coliseum  
in the evening.

The President, Secretary Cortelyou,  
Assistant Secretary Barnes, and Dr. Lung  
will spend the night at the residence  
of Mr. Robinson, secretary to the gov-  
ernor. On the morning of the 23d, at  
8 o'clock, the President and party will  
leave Hartford, and, stopping for thirty  
minutes at Willimantic, will arrive at  
Providence at 11:30 a. m.

Will Meet State Officials.

The Providence program includes a  
visit to the governor at the State House,  
where the President will also meet the  
State and city officials; and at 1 p. m.  
the party will start for a drive about  
the city, stopping at the city hall, where  
the President will make a brief address.  
From Providence the President and  
his immediate party will go by boat to  
Warwick, where they are to be enter-  
tained by Senator Aldrich at his resi-  
dence. Afterward they will proceed by  
boat to Newport, remaining there Sat-  
urday night and Sunday.

From Newport the train will go to  
Lynn Sunday evening, and the President  
and Secretary Cortelyou will drive to  
Nahant to visit Senator Lodge, return-  
ing to Lynn Monday afternoon, and af-  
ter a brief program at Lynn proceed-  
ing to Boston.

To Visit Secretary Moody.

During the evening in Boston the  
President will attend a meeting at Me-  
chanics' Hall. The next morning at  
8:35 the party will start for Portland,  
Me., making brief stops at Lowell, Law-  
rence, Haverhill, the home of Secretary  
Moody; Dover and Old Orchard.

At Portland the President will prob-  
ably make a few remarks, and he and  
his party will drive about the city,  
leaving at 4:35 p. m. for Lewistown,  
where a stop of one hour will be made,  
and the President will probably make a  
short speech.

Augusta will be reached at 8:30 p. m.

## ONE KILLED AND MANY INJURED IN ACCIDENT

Trolley Car Jumped Track and Rolled  
Into a Ditch.

NEW YORK, Aug. 20.—One man was  
killed and at least twenty injured in a  
trolley accident last night at Jerome  
Avenue and Morholu Parkway. The dead  
man is S. W. Keys, who suffered a frac-  
ture of the skull and died at Fordham  
Hospital.

The car was descending a steep grade  
and apparently got beyond the control  
of the motorman. It jumped the track  
and rolled into a ditch. Several sus-  
tained fractured legs and arms and are  
in Fordham Hospital. Many were at-  
tended and went home.

## AUTOMOBILE KILLS OLD MAN AND TWO CHILDREN

Machine Speeded by Belgian Count,  
Who Came Near Being Lynched.

BERLIN, Aug. 20.—Several Belgian au-  
tomobilists, including a Belgian count,  
whose name has not yet been learned,  
while automobiling in Rhine province  
today, killed an old man and two chil-  
dren.

The populace became so angered at the  
death of the automobilists' victims that  
they attacked the count and his compan-  
ions, determined to lynch them. The  
tourists were finally rescued with diffi-  
culty by the police.

## CONVICTS OVERPOWER PENITENTIARY GUARD

Serious Outbreak in Ken-  
tucky Prison.

MADE SUDDEN ONSLAUGHT

Militia and Extra Police Called on and  
Finally Succeed in Forcing Back and  
Confining the Desperate Men to Cen-  
ter of the Building.

FRANKFORT, Ky., Aug. 20.—The pris-  
oners in the Kentucky penitentiary have  
overpowered the guards and are now in  
complete possession of the interior of  
the prison walls.

Adjutant General Murray, in command  
of the Frankfort militia, has now moved  
to the penitentiary, and with the sher-  
iff's aid and prison guards have the  
prisoners confined to the center build-  
ing. The outbreak was begun at 6  
o'clock, when the prisoners were at  
breakfast. All of a sudden the prisoners  
sprang on the guards, at once disarmed  
them, and took possession of every gun  
within the walls. Several shots were  
fired. Several guards who were cap-  
tured have been placed in windows by  
prisoners to prevent further firing from  
the militia.

The situation is critical and ammunition  
and guns have been hurried to the  
prison guards. Guard Gregory of Louis-  
ville, is known to have been shot by a  
prisoner. Other guards and a number  
of prisoners are thought to have been  
wounded.

A negro convict was shot near the cen-  
ter building. There is no chance for  
the prisoners to get away. They re-  
fuse to surrender.

It is impossible to tell how many have  
been killed. Shots are being exchanged  
by the prisoners from the building and  
the besiegers. The convicts telephoned  
the warden that they would not surren-  
der and if he wanted them to come and  
get them.

## MISS NASH WILL NOT TALK OF HER ABSENCE

"Not at Home" Card Hangs  
on Door of Apartments.

The Erstwhile Missing School Teacher  
Treats Her Disappearance  
as a Joke.

Miss Louise G. Nash, the school teach-  
er who returned to her home Monday  
night after a mysterious absence of  
eleven weeks, was not at home to visit-  
ors today.

No one responded to the bell when a  
reporter called at the house, 1413 Fifth  
Street northwest, this morning. A card  
on the bell to the apartments occupied  
by Miss Nash and her mother, an-  
nounced that they were "Not at home."  
It was learned, however, that Miss  
Nash was at home, but that she has been  
out only once or twice since her return.  
She still stoutly refuses to say anything  
which will give her relatives the slight-  
est clue as to where she spent the time  
while away, and has informed them that  
it is no use asking her any further re-  
gard to the matter. She said she had not  
worried any while away, but had taken a  
rest and felt much better than she did  
before leaving.

Miss Nash, it is asserted, has been  
greatly amused over the sending out of  
circulars through the police requesting  
information regarding her whereabouts.

## CUT BABE'S THROAT AND THEN HER OWN

TIPTON, Ind., Aug. 20.—In a moment  
of insanity, believing her babe was de-  
formed, Mrs. James Romack cut the lit-  
tle one's throat from ear to ear, and then  
haggled at her own until members of her  
family interfered. She also died in  
twenty minutes.

A week ago she attempted her life  
with poison.

## BISHOP POTTER ON COAL STRIKE AND MATRIMONY

As to Day of His Marriage  
He Must Decide  
of Other Sex.

MUCH FAITH IN MITCHELL

Fears Time for Arbitrating Trouble Has  
Passed, But Laughingly Says He and  
Senator Hanna May Get a Job—Be-  
lieves Morgan Friendly to Labor.

NEW YORK, Aug. 20.—One of the  
questions put to Bishop Potter when he  
reached the pier was in relation to his  
coming marriage with Mrs. Alfred Cor-  
ning Clark. He was asked if the date  
for the wedding had yet been fixed. The  
Bishop replied diplomatically:

"When a person comes to the point of  
marrying he will find that it is necessary  
to defer to the mind and judgment of  
the other sex."

Having disposed of personal matters  
in this way, the Bishop proceeded to talk  
about the coal strike. He said that he  
had received several letters from Ralph  
M. Easley, secretary of the National  
Civic Federation, which led him to be-  
lieve that the strike would have been  
settled by this time.

"I am very much surprised to learn  
that there is no sign of a settlement."

yet," the Bishop continued. "While  
talking about the strike I want to say  
that Mitchell is conducting his affairs in  
a very statesmanlike manner. Mitchell,  
to my mind, is the ablest leader that  
labor has ever had in this country. I  
hope that the time for arbitration has  
not passed, but I fear that it has. It  
seems that neither side can settle this  
strike."

Job for Himself and Hanna.

"Perhaps a way can be found by  
which both sides may be induced to  
come to terms without appearing to sac-  
rifice principles. I suppose this will be  
a job for Senator Hanna and myself,"  
added the Bishop, with a laugh.

"Did you talk to Mr. Morgan about  
settling the coal strike?"

"No, I did not talk to him about a  
probable settlement of the strike. You  
know that is not the way Mr. Morgan  
does business. Before he talks about a  
subject he first has his facts collected  
by some trustworthy person. Then he  
is in a position to talk."

Morgan Friendly Toward Labor.

"My impression of Mr. Morgan is that  
his attitude toward labor is both friend-  
ly and wise."

"Regarding the operators or employ-  
ers of the coal miners, it seems to me  
that they are utterly opposed to treat-  
ing with their workmen through the  
union. They are willing to discuss their  
affairs with individuals, but they will not  
recognize our organization. I do not be-  
lieve in this policy. I hold that if the  
employees have the right to organize for  
the protection of mutual interests the  
employers have the same right."

## CRISIS IN THE CUBAN CABINET THREATENED

Charges Have Been Preferred Against  
Secretary of Public Works.

HAVANA, Aug. 20.—A crisis in the  
Cuban cabinet is threatened.

The Cuban Congress, resenting certain  
executive concessions, has preferred  
charges against the secretary of public  
works.

It is stated in authoritative quarters  
that should President Palma sustain the  
action of the secretary the Congress  
would begin impeachment proceedings  
against Palma.

## VICEROY REFUSES TO CONSIDER SCHEMES

Minister Conger Opposed to Grabbing  
of Concessions.

PEKIN, Aug. 20.—The action of Mr.  
Conger, the American Minister, and Sir  
Ernest Satow, the British representa-  
tive, in arousing the sentiment of their  
colleagues against the attempted grab-  
bing of concessions by the officials of  
the provisional government of Tientsin,  
has averted a serious scandal. A num-  
ber of the officials of the provisional  
government were accused of having  
granted concessions to companies in  
which they had a personal interest.

Since the restoration of Tientsin to  
the Chinese these men have been trying  
to persuade Viceroy Yuan-shih-kai to  
join in their schemes, but he says he has  
steadily refused to consider them.

## FEARS TROUBLE AT FUNERAL SERVICES

General Gobin Dreads Out-  
break Among Strikers.

FEELING IS MOST INTENSE

Dead Miner Will be Carried Out of Coal  
Region to be Buried So as to Prevent  
Trouble Among Sympathizers in  
That Section.

WILKESBARRE, Pa., Aug. 20.—The  
excitement through Panther Creek Val-  
ley caused by the killing of the notori-  
ous strike leader, Patrick Sharpe, has  
not yet resulted in any violence, but the  
temper of the strikers is bitter and there  
is much fear that tomorrow, when the  
grief of the strikers is paraded at the  
funeral, disturbances may follow.

The coal guards, of whom McElmoyle,  
who Sharpe was one, are keeping  
within the stockades and showing them-  
selves as little as possible, owing to the  
feeling of the strikers, while the sol-  
diers, instead of being in Lansford,  
where lies the body of Sharpe, are at a  
point three miles distant.

Critical Time Tomorrow.

This is within striking distance of the  
town and it prevents the irritation  
which the presence of the uniforms  
might cause.

General Gobin believes that the criti-  
cal time will come tomorrow morning,  
when the funeral occurs. "I shall take  
special precautions," he said, "to pre-  
vent any disturbance following it, and  
then, if all is quiet, the troops may go  
back to Shenandoah before the week is  
over."

General Superintendent Zehner of the  
Lehigh Coal and Navigation Company,  
who employed McElmoyle, has sent a  
letter of condolence to the family of  
Sharpe, expressing his regret at the  
shooting.

Take Body Out of Strike Region.

A number of non-union men called  
upon the Citizens' Alliance, organized  
during the period of recent riots, and  
asked what they are going to do regard-  
ing the shooting. The alliance is to do  
nothing, believing that McElmoyle shot  
in order to defend himself from the  
threatened attack, and that he had the  
right to do so. McElmoyle himself says  
that Sharpe was trying to pluck the of-  
ficial shield from his breast, and that  
a hundred or more men were threat-  
ening him when he fired.

Owing to the intense feeling, the in-  
quest will probably be held in Mauch  
Chunk, where there are no strikers  
living. It being out of the coal region  
there is not likely to be any excitement  
of a serious nature.

Sharpe was under bail to appear be-  
fore the grand jury on twenty-two  
charges, all growing out of strike  
troubles.

Start Work Under Guard.

The Warnke washery started this  
morning, under the guard of twenty-five  
coal and iron police and ten deputy  
sheriffs. The strikers gathered in  
groups along the road leading past the  
washery, but there was no demonstra-  
tion of violence. The guards are behind  
strong barricades of barbed wire, and  
are armed with Winchester.

Steam was kept up all night long, and  
about daylight a special train with  
twenty-five workers from Scranton  
steamed into the washery yard under  
guard. No interference with the train  
occurred, and work was and has since  
gone steadily on. Sheriff Jacobs wait-  
ing in his office here, and Colonel Dough-  
erty, of the Ninth Regiment, and Colonel  
Waters, of the Thirtieth, at Scranton,  
are all gratified by the fact that the  
strikes are returned quiet, and hope  
they will continue to do so. Strike lead-  
ers are on the scene.

Mitchell May See Morgan.

The English-speaking workers are  
readily controlled, but the temper of the  
foreigners is a doubtful quality.

President Mitchell has sent word to  
the local officials here that he will reach  
this city Thursday night. Where he will  
be in the meantime he does not say, and  
this fact again gives rise to the rum-  
or that he may decide to ask the inter-  
cession of J. Pierpont Morgan in the strike  
and endeavor to see him in New York  
tomorrow.

Local leaders continue to state that  
they do not know of any plan to this ef-  
fect.

## GRAND RECEPTION FOR "MOTHER" JONES

Will Pay a Visit to Murray City, Ohio,  
On Labor Day.

MURRAY CITY, Ohio, Aug. 20.—The  
reception to be accorded "Mother" Jones  
in Murray City on Labor Day will sur-  
pass anything known to the Hocking  
Valley.

The leading miners of the State and  
city officials will meet the famous ex-  
ponent of labor at the train, and she  
will be escorted to the park by 100 horse-  
men and several brass bands, followed  
by at least 2,000 miners.

## DROWNED FOUR CHILDREN AND KILLED HIMSELF

Insane Indiana Farmer Commits  
Frightful Deed in Wife's Absence.

SALINA, Kan., Aug. 20.—Joe Ander-  
son, a farmer, aged thirty-two, today  
drowned his four children in a cistern  
and then placing a revolver to his head  
blew out his brains. His wife was in  
the city shopping at the time.

When she returned home she found a  
note from her husband telling her what  
he had done. The bodies of the chil-  
dren and that of the insane father were  
brought to this city tonight and now lie  
in the rooms of a local undertaker.

## DEPARTMENT NOT TO PUNISH VAN SCHAICK

Letter Making Announcement  
Sent to Dr. Crounse.

NO DISHONORABLE CONDUCT

Discovered That He Never Absolutely  
Refused to Marry His Fiancee, But  
Suggested a Postponement—War Of-  
fice Cannot Control Love Affairs.

After a careful investigation of the  
complaint of Dr. Jesse Crounse, of Al-  
bany, N. Y., regarding the failure of  
Lieut. Louis J. Van Schaick to marry  
Miss Mabel Crounse, Acting Secretary  
Sanger has decided that the War De-  
partment can take no action in the case.  
A letter to Dr. Crounse to this effect  
will be sent him today.

The position of the War Department  
is that it cannot undertake to adjust the  
private love affairs of its officers, un-  
less dishonorable conduct is involved.  
In the case of Lieutenant Van Schaick  
it has been shown that he never abso-  
lutely refused to marry the young lady,  
but merely sought to postpone the wed-  
ding for awhile to enable him to go to  
the Philippines and participate in the  
campaign in Mindanao.

## VENEZUELAN FORCES EVACUATE CUMANE

European Nations Declare Blockade  
Inefficient.

A telegram was received last night at  
the Department of State from Minister  
Bowen, dated Caracas yesterday, in  
which he reported that the government  
forces had evacuated Cumana the pre-  
vious night.

He further stated that he had been  
informed that Germany, France, and  
Great Britain, through their representa-  
tives at Caracas, had jointly character-  
ized the Venezuelan declaration of  
blockade as inefficient, whereupon the  
government asked for proof and suggest-  
ed that merchant vessels be sent to test  
the efficiency of the blockade.

## MR. MORGAN WOULDN'T POSE FOR FIVE MILLION

Wearing Old Grand Duke  
Hat, Financier Refuses  
Newspaper Men.

ACTIVE AND SPY AS A BOY

Goes to Office and Takes Up Reins of  
Business, Having a Large Number of  
Heavy Deals to Arrange—Ship Com-  
bine an Assured Fact.

NEW YORK, Aug. 20.—J. Pierpont  
Morgan is in town. He arrived this  
morning on the White Star liner Oceanic  
from Europe with a carcase full of  
ship contracts and the ship's hold  
full of Europe's finest art works.

With the big financier were Clement  
Griscom, president of the International  
Navigation Company, and P. A. B. Wide-  
ner, both of whom are from Philadelphia.

Morgan was met down the bay by a  
representative of his firm, and apprised  
of affairs which took place while en route  
to this country. When surrounded by  
an eager crowd of newspaper men, who  
wished to tell him of President Schwab's  
reported illness and ply him with a hun-  
dred questions on the ship combine and  
other projects, the financier shook his  
cane vigorously and said:

"No; there is no use of you asking me  
questions. I have nothing to say. You  
are simply blocking the passageway."

"Won't you pose for a photograph?"  
pleaded a newspaper snapshot artist.

"Young man, I would not pose for \$5-  
600,000," was Morgan's reply.

There were no poses, and the financier  
hurried aboard his steam yacht Corsair,  
which lay at the foot of the pier.

Mr. Morgan will go to his office some  
time today and take up the reins of his  
banking business again.

Many Big Deals to Arrange.

Mr. Morgan has made definite arrange-  
ments for the acquisition of the New York  
and the ship combine, and the settle-  
ment of the Louisville and Na-  
ville deal and the formation of the  
Southern Securities Company will prob-  
ably be the first to occupy Morgan's at-  
tention. Litigation affecting the bond  
conversion plan of the Steel Trust and  
the conduct of the affairs of the North-  
ern Securities Company will also be in-  
quired into, and Wall Street is anxiously  
awaiting to see which way the Morgan  
cat will jump.

Take Action on Coal Strike.

Whether the subject of the coal strike  
will be brought to his attention by the  
operators or by other interests is a ques-  
tion, but Morgan will doubtless take  
action in the matter soon.

Despite the great amount of work  
done by Mr. Morgan while abroad, the  
financier has improved physically by  
his trip. His color is better and he  
moves about with the activity of a boy.  
Association with aristocracy and poten-  
tates has not changed his familiar  
dress. He still wears that old grand  
duke hat and flourishes his heavy walk-  
ing stick. He was dressed in a quiet,  
dark gray frock coat and trousers to  
match.

Ship Combine an Assured Fact.

Clement Griscom, who, with Mr. Wide-  
ner, had many long conferences with  
Morgan on his way to this country, when  
asked about the ship combine, said:

"The ship combine is an assured fact.  
All the lines which were slated for the  
consolidation have agreed to enter the  
combine. I believe the Canadian lines  
may enter the combination. In the fu-  
ture a traveler may purchase a single  
ticket, which will be good on any of the  
five lines."

## CHOLERA RAVAGES DECIMATING ARMY

JURY OF AWARD FOR  
MUNICIPAL BUILDING

New Names Added for Those  
Who Declined to Serve.

Program For the Competition Will Soon  
Be Completed and Issued to  
Architects.

The commission created by the act of  
Congress to supervise the erection of  
the proposed Municipal Building several  
days ago selected as the jury of award  
under the program of competition of ar-  
chitects, the Engineer Commissioner of  
the District, the Supervising Architect  
of the Treasury, D. H. Burnham, of  
Chicago; C. F. McKim, of New York,  
and Frederick L. Olmstead, of Boston.

These gentlemen have all been heard  
from, and while Mr. Burnham accepts  
the position on the jury, Messrs. McKim  
and Olmstead, although much interested  
in the project, are unable to serve, both  
having in view a trip to Europe within  
the next few months.

The commission has announced in  
their place Messrs. George B. Post, of  
New York, and Robert S. Peabody, of  
Boston, both of whom have accepted.  
The finishing touches are being put to  
the program for the competition, now  
that all the jury of award have been se-  
lected, and it will soon be issued to the  
twelve architects selected to compete.  
Their names will be announced later.

## ARRESTED FOR MURDER COMMITTED IN VIENNA

NEW YORK, Aug. 20.—Otto Wolf, a  
baker of Pearl River, N. Y., was ar-  
rested at the Erie Railroad station in  
Jersey City this morning by Policeman  
Connell.

According to the warrent accompanying  
the description of him sent on from  
Pearl River, Wolf is wanted in Vienna,  
Austria.
